## St Francis' Catholic Primary School Maths Progression

## Maths Intent

## EYFS -see Development Matters 2021 for detailed examples of how to support learning in EYFS <br> Mathematics

Developing a strong grounding in number is essential so that all children develop the necessary building blocks to excel mathematically. Children should be able to count confidently, develop a deep understanding of the numbers to 10 , the relationships between them and the patterns within those numbers. By providing frequent and varied opportunities to build and apply this understanding - such as using manipulatives, including small pebbles and tens frames for organising counting - children will develop a secure base of knowledge and vocabulary from which mastery of mathematics is built. In addition, it is important that the curriculum includes rich opportunities for children to develop their spatial reasoning skills across all areas of mathematics including shape, space and measures. It is important that children develop positive attitudes and
interests in mathematics, look for patterns and relationships, spot connections, 'have a go', talk to adults and peers about what they notice and not be afraid to make mistakes

| 0-3 YEARS | 3-4 YEARS | RECEPTION |
| :---: | :---: | :---: |
| Count in everyday contexts, sometimes skipping numbers - '1-2-3-5.' <br> Climb and squeeze themselves into different types of spaces. <br> Build with a range of resources. <br> Complete inset puzzles. <br> Compare sizes, weights etc. using gesture and language - 'bigger/little/smaller', 'high/low', 'tall', 'heavy'. <br> Notice patterns and arrange things in patterns. | Develop fast recognition of up to 3 objects, without having to count them individually ('subitising'). Recite numbers past 5 . Say one number for each item in order: 1,2,3,4,5. Know that the last number reached when counting a small set of objects tells you how many there are in total ('cardinal principle'). Experiment with their own symbols and marks as well as numerals. Solve real world mathematical problems with numbers up to 5 . Compare quantities using language: 'more than', 'fewer than'. Talk about and explore 2D and 3D shapes (for example, circles, rectangles, triangles and cuboids) using informal and mathematical language: 'sides’, 'corners'; 'straight', 'flat’, 'round'. Understand position through words alone - for example, <br> (1) Make comparisons between objects relating to size, length, weight and capacity. Select shapes appropriately. | ELG: Number Children at the expected level of development will: - Have a deep understanding of number to 10 , including the composition of each number; 14 Subitise (recognise quantities without counting) up to 5; - Automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10 , including double facts. <br> ELG: Numerical Patterns Children at the expected level of development will: Verbally count beyond 20, recognising the pattern of the counting system; - Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity; - Explore and represent patterns within numbers up to 10 , including evens and odds, double facts and how quantities can be distributed equally. |

| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 |
| :--- | :--- | :--- | :--- | :--- | :--- |

| COMPARING NUMBERS |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| use the language of: equal to, more than, less than (fewer), most, least compare and order numbers from 0 up to 100; show<, > and = signs | compare and order numbers from 0 up to 100; use <, > and = signs | compare and order numbers up to 1000 use <, > and = signs | order and compare numbers beyond 1000 use <, > and = signs <br> compare numbers with the same number of decimal places up to two decimal places (copied from Fractions) | read, write, order and compare numbers to at least 1000000 and determine the value of each digit use <, > and = signs (appears also in Reading and Writing Numbers) | read, write, order and compare numbers up to 10000000 and determine the value of each digit use <, > and = signs (appears also in Reading and Writing Numbers) |

IDENTIFYING, REPRESENTING AND ESTIMATING NUMBERS

| identify and represent |
| :--- | :--- | :--- | :--- | :--- | :--- |
| numbers using objects |
| and pictorial |
| representations including |
| the number line |$\quad$| identify, represent and |

| estimate numbers using |
| different representations |

| READING AND WRITING NUMBERS (including Roman Numerals) |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| read and write numbers from 1 to 20 in numerals and words. | read and write numbers to at least 100 in numerals and in words | read and write numbers up to 1000 in numerals and in words | read and write numbers up to 100000 , in numerals and in words | read, write, order and compare numbers to at least 1000000 and determine the value of each digit <br> (appears also in Comparing Numbers) | read, write, order and compare numbers up to 10000000 and determine the value of each digit (appears also in Understanding Place Value) |
|  |  | tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12 -hour and 24hour clocks (copied from Measurement) |  | Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value. When are we doing Romans read Roman numerals to $1000(\mathrm{M})$ and recognise years written in Roman numerals. |  |

| UNDERSTANDING PLACE VALUE |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| verbally use the terms of the place value in a twodigit number (tens, ones/units) | recognise the place value of each digit in a two-digit number (tens, ones) | recognise the place value of each digit in a threedigit number (hundreds, tens, ones) | recognise the place value of each digit in a four, five \& six-digit number (hundred thousands, ten thousands, thousands, hundreds, tens, and ones) <br> find the effect of dividing a one- or two-digit number by 10 and 100 , identifying the value of the digits in the answer as units, tenths and hundredths (copied from Fractions) | read, write, order and compare numbers to at least 1000000 and determine the value of each digit <br> (appears also in Reading and Writing Numbers) <br> recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (copied from Fractions) | read, write, order and compare numbers up to 10000000 and determine the value of each digit (appears also in Reading and Writing Numbers) identify the value of each digit to three decimal places and multiply and divide numbers by 10,100 and 1000 where the answers are up to three decimal places (copied from Fractions) |

| ROUNDING |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
|  | round any number to the nearest 10 | round any number to the nearest 10 and 100 | round any number to the nearest 10, 100 or 1000 | round any number up to 1000000 to the nearest 10, 100, 1000,10000 and 100000 | round any whole number to a required degree of accuracy |
|  |  |  | round decimals with one decimal place to the nearest whole number (copied from Fractions) | round decimals with two decimal places to the nearest whole number and to one decimal place (copied from Fractions) | solve problems which require answers to be rounded to specified degrees of accuracy (copied from Fractions) |
| PROBLEM SOLVING |  |  |  |  |  |
|  | use place value and number facts to solve problems | solve number problems and practical problems involving Number and Place Value objectives. | solve number and practical problems that involve all of the above and with increasingly large positive numbers | solve number problems and practical problems that involve all of the above | solve number and practical problems that involve all of the above |
